

SPEEDER

FIT AND FAST

Quick trips into the city or out to the lake. Short training units in between. For all spontaneous high velocity lovers, our SPEEDER is the bike of choice! This model runs as smooth as a road racer while offering almost the same acceleration potential at a slightly higher weight. Simultaneously, a SPEEDER provides comparatively higher comfort and a better outlook – thanks to its flat handlebar and geometry adapted for everyday use.

The revised SPEEDER geometry derives from our high-end road racer SCULTURA EVO while the subtle and supersmooth frame seams are the stunning result of SMOOTH WELDING technology. All SPEEDER models are constructed from highquality Racelite 6061 double butted aluminium and are equipped with EGG SHAPE head tubes for optimal steering control. In MY 2011, they also impress with the attractive 3D-moulded top tubes of our ROAD LITE series – for amazing road performance!

Reach your destination faster than you thought possible – MERIDA SPEEDER!

S-PRESSO

HAVE THE CITY AT YOUR FEET!

Reduced to the max – whilst maintaining the best of the essentials! Our MERIDA S-PRESSO represents the smartphone among urban bikes: Purposefully designed up to the very last welded seam with cutting edge technologies – crowned by elegant understatement with an “I want one” persona!

All S-PRESSO models come to a stop via hydraulic disc brakes – great for those spontaneous stops at the espresso bar! In addition to super-swift 27-speed derailleur geared versions, there is also our stylish i8 featuring an 8-speed rear hub providing a simplistic single speed look. New for 2011: Every SPRESSO is now delivered with a direct mount side stand and perfectly matching mudguards. This MERIDA series is made of high quality Racelite 6061 double butted aluminium and looks as if made of one piece thanks to the subtle as well as flush SMOOTH WELDING seams. Simultaneously, the CONE HEAD head tube with external headset guarantees ultra-precise handling.

S-PRESSO to go – our urban bike with an extra portion of lifestyle factor!
